DETAILED ACTION

Election of Species

- [01] This application contains claims directed to the following patentably distinct species of capsular medical system:
 - [01a] First Embodiment (pages 5-16, Figs 1-3C)
 - [01b] Second Embodiment (pages 16-17, Fig 4)
 - [01c] Third Embodiment (pages 17-18, Fig 5)
 - [01d] Fourth Embodiment (pages 18-20, Figs 6A-6C)
 - [01e] Fifth Embodiment (pages 20-38, Figs 7-12)
 - [01f] Sixth Embodiment (pages 38-42, Fig 13)
- [02] The species are independent or distinct because the "monitor device" of each species has mutually exclusive and distinct features. There do no appear to be any generic claims. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
- [03] Upon the allowance of a generic claim, applicant will be entitled to consideration of

Application/Control Number: 10/792,237

Art Unit: 3739

claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

[04] Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

- [05] Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip R. Smith whose telephone number is (571) 272 6087 and whose email address is philip.smith@uspto.gov. The examiner can normally be reached between 9:00am and 5:00pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272 4764.
- [06] Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov.

Art Unit: 3739

Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
